

**Kent Welding Gun** Kent Welding Gun is the only wholly owned, Canadian manufactured welding gun. Since making our first welding gun in 1967, we've been producing all the components in-house from the contact tip to the power cable connection and every part between. This enables us to ensure the highest quality for a very competitive price. This approach has allowed us to grow and adapt in an ever-changing marketplace.

Our 14,500 sq. foot manufacturing facility located in Winnipeg uses the latest CNC lathes to produce contact tips, nozzles, gas heads and all the other machined components that make up the

**Kent Welding Gun.** Our machining capabilities combined with our experienced and dedicated team allow us to manufacture top quality welding products and offer them at very competitive prices. Our team is also there when you have a special welding application that requires a custom designed welding gun or component.

For over 40 years, welding professionals in the tractor, farm implement, bus, railcar, structural steel, ornamental, and auto body industries have come to appreciate the quality and value from **Kent Welding Guns** and its products. Give us a try and if you are not completely satisfied in the first 60 days, simply return the product for a full credit.
