

NEW FROM KENT

ULTRA MIG GUN

200 - 300 - 400 - 500 AMP

THE DESIGN – Created by professional welders working with our Kent design team to develop the new KENT ULTRA MIG Gun.

THE FEATURES – Comfort and balance are what welders told us was important, so we made a rugged lightweight handle. An easy to change 360° rotating gun neck allows the welder to adjust to a comfortable welding position and reduces welder fatigue. Superior cable supports provide durability and flexibility.

THE VALUE – With over 30 years experience manufacturing KENT WELDING GUNS, we have combined quality components with strict assembly and final inspection guidelines. This ensures that the new KENT Ultra Mig welding gun will provide you with a comfortable, rugged welding gun for surprisingly less than you would expect to pay.
